ARE THE DOORS TO

Heaven of Knowledge

OLIVER PUBLICATIONS

DIGITAL SUPPORT

LESSON PLAN: A lesson plan is just like a personal assistant to the teachers which helps them with systematic teaching notes. It covers detailed description of the course of instruction or "learning trajectory" for a lesson. It also has a daily lesson plan for the teacher which can be referred by them on day to day basis.

QUESTION PAPER GENERATOR: It is one of the most useful, labour and time saving feature of the app. Text generator as its alternate name suggests, it helps the teachers in independently setting the question paper, nullifying the role of DTP operator or the typist. It also suggests important questions from every topic to the teachers.

FLIP BOOK: A flip book or flick book is a book with a series of pictures that vary gradually from one page to the next, so that when the pages are turned rapidly, the pictures appear to animate by simulating motion or some other change. This app feature provides varied and creative options for flip book making.

STUDENTS APPS: This app is a digital compilation of the course books. In this era of technology where the students have a very easy access to mobile and computers, they can study anytime, anywhere and repeat the lessons as per their requirement.

TEACHERS RESOURCES: The app has a well researched and composed resource material for the teachers which is easily accessible on a click. The content is developed by the known educationist and includes perfect and to the point answers to all questions asked in the books.

VIDEOS: Videos are the most effective medium for the out of the class learning. With this virtual learning tool, students can learn and relearn the topic with better clarity and convenience.

PRESENTATION: There is an exclusive feature of interactive presentation whereby students can watch the video presentation on the desired topic. These presentations are prepared by subject experts keeping in mind the understanding levels of the students.

INTERACTIVE TASKS: This app also gives an opportunity to the students to gain practical knowledge and develop their skill sets required by the industry. With the help of this app they can practically apply the knowledge acquired from the books.

AUDIO: All the lessons are also available in audio format. The lessons are recorded by the professionals and text is curated by the subject experts. This feature is actually very helpful for the lesson revision.

PICTURE GALLERIES: Now a day's projects are an integral part of course curriculum. This app helps the students present their project work in the most presentable way by helping them out with the most relevant and original pictures on all the subjects.

ANIMATIONS: Making learning more fun, this app utilizes the art of animation. Lessons are interestingly taught with animated stories, music and videos that makes learning more engaging and easy for the young learners.
