# DIGITAL TOOLS FOR EDUCATORS

The National Curriculum Framework for School Education (NCF 2023) envisions an education system which provides high-quality education to all, and thereby making India a global knowledge superpower. Education must develop not only cognitive capacities but also social, ethical, and emotional capacities and dispositions.

## TEST PAPER GENERATOR

It is one of the most useful, labour and time saving feature of the app. Text generator as its alternate name suggests, it helps the teachers in independently setting the question paper, nullifying the role of DTP operator or the typist. It also suggests important questions from every topic to the teachers.

## TEACHERS RESOURCES BOOKS & WORKSHEET

The app has a well researched and composed resource material for the teachers which is easily accessible on a click. The content is developed by the known educationist and includes perfect and to the point answers to all questions asked in the books.

## LED VIDEOS

Videos are the most effective medium for the out of the class learning. With this virtual learning tool, students can learn and relearn the topic with better clarity and convenience.

## ANIMATIONS CONTENT

Making learning more fun, this app utilizes the art of animation. Lessons are interestingly taught with animated stories, music and videos that makes learning more engaging and easy for the young learners.

# MINDS GAZETTE

Minds Gazette is a series of 8 books on General Knowledge meant for classes 1st to 8th based on National Education Policy (NEP 2020) and National Curriculum Framework (NCF 2023). It will motivate students to advance along the path of knowledge. This knowledge will allow the children to learn about the past as well as the current world. Keeping in mind the requirements, we have incorporated a perfect blend of Sustainable Development Goals (SDGs) which encompass economic, social and environment dimensions. This series strives to implement the key recommendations of the 21st Century Skills (4 C's) - Communication, Creativity, Collaboration and Critical Thinking.

The youngster needs exposure to the outside world in addition to traditional education in order to keep up with the times. In addition, the children's thirst for knowledge has grown exponentially. There are numerous questions for which they seek answers. It also covers the severe outbreak (COVID-19) that hit the world, as well as the new-age revolution in the fields of Artificial Intelligence (AI) and Machine Learning (ML), which focuses on the computational thinking of the learners.
